## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It gives you free marks pretty much to go toward your final grade

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I really enjoyed the tutorial on indigenous food hunting & gathering. I think that the lesson & activity were both very well thought out

3) Are there any changes that could improve tutorials overall?

make the activities less child-like. Instead of doing activities like the spoon evolution & potato head, I would prefer to review more class material for a better understanding

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I really liked how respectful & informative it was. I learned lots and I think that indigenous culture is extremely important to learn

5) What are your TA's strengths?

Very professional & understanding. She really wants her students to succeed & she is very interested in the material

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Maybe be a bit more fun & less serious

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I like how the tutorials usually connect to things that apply to real life in the present. While lecture can be more historical, the tutorial bridges past and future.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Definitely the marriage one. You don't realize how ingrained monogamy can be until you see just how much the rest of the world differs. It was pretty cool.

3) Are there any changes that could improve tutorials overall?

No one really knows what they're doing for bioanth, with the monkey skulls. The activity for that seems a bit much, considering how short our time is.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I found it very fascinating; it was very cool to see native culture in cuisine like that. I think there is too much damage-focused research on Indigenous People, so this helped.

5) What are your TA's strengths?

She explains the topics well.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Nah fam, she was great.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

We get to explore course content at a more personal level.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The homonins lab was really fun because it was interactive.

3) Are there any changes that could improve tutorials overall?

None as long as it's the same TA, she's amazing.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I like that it made me see things from more than my own perspective, if we had more time on the topic I feel we would greatly enjoy it.

5) What are your TA's strengths?

She's well-spoken, erudite, and knows her stuff.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

I see nothing that needs improving.

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

they are simple and I don't feel nervous to attend or participate

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I think the garbageology tutorial was the most thought provoking.  
I think it helped clarify the ideas and concepts of garbageology.

### 3) Are there any changes that could improve tutorials overall?

Maybe more content or discussions of terms and concepts.  
They sometimes lacked depth.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

~~was~~ ~~by~~ ~~valuable~~ ~~but~~ ~~not~~

didn't understand the correlation between the assignment and  
the concepts

### 5) What are your TA's strengths?

clear about what the tutorial will be like, had realistic expectations  
of us. & provided helpful, constructive comments.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Megan was a very good TA and doesn't have any noticeable  
techniques or ways to improve on.

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

She is very clear in her explanations. The tutorials specifically helped with more examples of the topics. Also it helped to visually see and react with material.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Seeing the skulls. Going into it I thought it wasn't going to help but the activities were very interesting and helped me understand some key topics.

### 3) Are there any changes that could improve tutorials overall?

- more useful hands on activities
  - ex. potato head wasn't helpful at all
- more connected to main lecture

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

### 5) What are your TA's strengths?

- Personable
- very very helpful
- knows what she's teaching
- great TA

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

pull more of her experiences and interests into the tutorial

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I liked how it was very hands-on, with lots of different activities.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I really liked the tutorial when we talked about insects and got to try insect food. It definitely pushed me out of my comfort zone, and it actually tasted good.

3) Are there any changes that could improve tutorials overall?

Discuss more of the lecture material in order to hit home crucial aspects of the course.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I believe it was kind of unreflective in the sense of what I actually took away from it.

5) What are your TA's strengths?

- good speaker - respectful - well prepared  
- very kind - excellent knowledge of subject matter - clear instructions

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

honesty I thought she did an excellent job,  
my favourite TA out of all the labs/tutorials  
I had this semester

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They are a great way to visit and elaborate on course concepts presented in lecture or in the textbook

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I personally enjoyed the Culture tutorial & also the Marriage & Kinship tutorials as they impacted directly, our daily lives, and those around us

3) Are there any changes that could improve tutorials overall?

Smaller tutorial homework. It becomes difficult to complete a large tutorial homework (such a 5 mark questions) alongside an already large weekly quiz

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Can supply students with information they may not know about and how it affects students and those around them

5) What are your TA's strengths?

- Explaining each concept
- Friendliness & open about everything
- respectful of opinions and thoughts

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

N/A (Great TA)

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

simplicity  
visual and hands-on learning

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

not provided ... 

3) Are there any changes that could improve tutorials overall?

Ø on late homework is a bit extreme and very detrimental to grades. Life happens and sometimes you forget about them. I think there should be a 25% deduction every day late. Or maybe even 50% deduction. But I still think student should be able to receive late marks.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

comparing the food guides was interesting.

5) What are your TA's strengths?

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Chewing gum while teaching seems unprofessional.  
Especially when doing her guest lecture talk in our  
class

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I like that they were very interactive & got us thinking in groups before participating in class discussion

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

For me, the garbageology tutorial was the most interesting. I felt like a detective, & it was also a new concept for me.

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It was interesting, but I feel like ~~and~~ it may not have been super engaging for those who are not naturally interested. Would be cool to be able to see/try indigenous food.

5) What are your TA's strengths?

Very knowledgeable. Makes every student feel heard and appreciated. Provides outsider knowledge to enhance the course.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

N/A

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

N/A

3) Are there any changes that could improve tutorials overall?

Most of the concepts covered in the tutorials are fascinating, but the methods by which we explore those concepts vary from engaging and interesting (Skull tutorial) to boring and childlike (Garbage & Mr. Potato head). The Potatohead one stands out to me because I felt like the concept was way too oversimplified in the author's

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

N/A

5) What are your TA's strengths?

N/A

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Maybe create more challenging homework. I found the assignments were more or less me regurgitating information as opposed to reflecting on what I learned.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

got ~~to~~ to work more hands on with course material

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I enjoyed the kinship tutorial it was interesting to learn about different types of families and the pros and cons that go along with them

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The venn diagram was hard to use maybe using ~~some~~ boxes would be easier in the future  
↑  
or something similar

5) What are your TA's strengths?

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I like the clarification of things we have learnt in lecture and the opportunity to ask questions in a smaller group

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I like the Darwin's evolutionary bird activity, where we could look at evolutionary advantages by playing with spoons, chopsticks, and clips.

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I found the instructions confusing, especially the Venn diagram. It might have been easier with a T-chart.

5) What are your TA's strengths?

She is super clear and straight forward. I found her very knowledgeable with the course material. She also gave us tons of opportunities to ask questions.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

7

3) Are there any changes that could improve tutorials overall?

yes

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Nothing and no

5) What are your TA's strengths?

Explaining the Lab to the class, and telling us what to do.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

No, She did a very good job.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It was different than other classes, like with the workshops we did. Made it more interactive rather than just another lecture.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The tutorial with all the skulls was the most interesting.

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It was probably my least favourite tutorial of the term. Not sure how to improve it but I would either take it out or complete re-work

5) What are your TA's strengths?

She is knowledgeable in the course material.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- going more in depth w a concept
- hands-on

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

- the garbology tutorial was fun  
→ I liked going thru the garbage to decide who lived in the house

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

5) What are your TA's strengths?

- She is very knowledgable, explains concepts well
- Meghan's very nice, too ÷

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- maybe speak a little louder, other than that, nothing

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Palm oil tutorial. I liked that the material discussed was easily applicable to everyday life.

3) Are there any changes that could improve tutorials overall?

4) The Food and indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

5) What are your TA's strengths?

- Solid understanding of discussed material
- Always seems happy to help and engage the class

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

the SKULLS tutorial. learning about what characteristics to look for to categorize the bones

3) Are there any changes that could improve tutorials overall?

I thought some of the tutorials were strange, not useful. Playing with Mr. Potato head did not help. Sort of embarrassing to have such childish activities in a <sup>UNIVERSITY</sup> class

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

5) What are your TA's strengths?

friendly and outgoing, easy to talk to

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

smaller class size compared to lecture

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

the skull hominin one, very interesting & relevant to lecture material.

3) Are there any changes that could improve tutorials overall?

→ kinship & marriage

more material. The potato head tutorial & genetics tutorial seemed to have no point, there should be more focus on the message rather than the game/activity. Also should be more relevant

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked it, but we didn't focus on any solutions, just identified an issue. There could have been a call for action involved.

5) What are your TA's strengths?

knowledgable, being on time, organized & prepared

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

I liked everything about her, I believe she could have presented herself more professionally, wearing more professional outfits rather than leggings & baseball tees, & not speaking about her sex life/personal sexual experience

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I enjoyed how interactive they were. The activities were easy to understand, fun, and related back to concepts from class.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I most enjoyed the bio-anth tutorial, since it was a direct application of learning and acted almost like a lab.

3) Are there any changes that could improve tutorials overall?

The activities could have been more diversified, but this does not detract from the tutorials overall.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I was sick for this tutorial, and as such was not in attendance.

5) What are your TA's strengths?

Meaghan was very knowledgeable, clear, and approachable, making tutorials a blast!

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Not that I can think of.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The hominin/evolution tutorial was cool, getting to see a variety of skulls up close & examine their differences was a good way to get a better understanding of hominin/primate features & development.

3) Are there any changes that could improve tutorials overall?

Some of the activities took too much time & we isn't very helpful for understanding the material, like the potato head one.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I thought it was good to raise awareness that the food guide doesn't adequately cover native populations.

5) What are your TA's strengths?

Enthusiastic & knowledgeable.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Very interactive & hands-on

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Liked the Canada field guide activity

3) Are there any changes that could improve tutorials overall?

Didn't think the primates exercise going around tables was super effective, activity was a little confusing / overwhelming.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Found the fielding cards not very informative for the questions asked. Liked the dinner garden one & the field guide.

5) What are your TA's strengths?

- passionate about anth
- clear lecture, doesn't ramble but is thorough
- very friendly & caring

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Overall loved Meghan as a TA. She made the class very enjoyable & fun and I was interested to learn more beyond the class material from her

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

They were easy to engage with. I really found they connected to the lecture part nicely & helped me learn more & think deeper about the subjects @ hand

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The Palm oil tutorial. I was unaware how much Palm oil was in everything and this tutorial was eye opening.

### 3) Are there any changes that could improve tutorials overall?

Sometimes I found the homework questions didn't totally connect to the tutorial. The tutorials themselves were great, just the homework was sometimes ill fitting or worded strangely.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I really liked it! I was unaware that there were ~~seper~~ separate nutrition guidelines for indigenous, and I was very interested to see them.

### 5) What are your TA's strengths?

Speaking & clarifying things.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

She was great ☺

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- hands on learning and interactive discussions  
- knowledge from a grad student in this field was nice to ask questions about research she has done

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I really enjoyed the garbage tutorial. It created interesting conversations about both environmental impacts and cultural/gender assumptions from garbage.

3) Are there any changes that could improve tutorials overall?

I feel like the one thing that could improve is class participation. I was one of the few that other spoke out bc no one else was. same w/ my group, I had to lead bc the others didn't really care or take initiative.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I was unable to attend the Indigenous Peoples tutorial but the food one was a lot of fun and interesting to discuss cultural norms/implications/meanings of food

5) What are your TA's strengths?

Well spoken, encouraging, great energy! 😊

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

forcing class discussion rather than standing in empty awkward silence bc no one wanted to participate.

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

I don't find anything about tutorials that helpful. I understand the desire to create hands-on activities for the course, but I'm not paying hundreds of dollars in tuition to spoon chickpeas into a bowl.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the Food & Indigenous Peoples Tutorial because it showed how deep colonialism runs into all aspects of society.

### 3) Are there any changes that could improve tutorials overall?

I honestly do not see a need for tutorials for this kind of course. It's an hour of my day I could have spent doing other things (like ~~studying~~ studying for the actual course content of Anth 100).

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It was great! Maybe more context/history of how food has been used as a colonial tactic in the past.

### 5) What are your TA's strengths?

While the tutorials have little substance, Meghan does a great job at engaging students. She is thoughtful, smart, and supportive.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

Good when it focuses on more difficult concepts (i.e. the skull lab) to solidify core concepts.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Again, it has to be the skull analysis. This was one of the few tutorials that really benefited from a hands-on approach.

### 3) Are there any changes that could improve tutorials overall?

Tutorials that cover easily-explainable concepts. I don't need to play with Mr Potato heads for 20 minutes to understand that all families are different.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The concept was good, but maybe a different way to categorize information rather than a Venn Diagram.

### 5) What are your TA's strengths?

Very clear and concise, super polite!

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Keep it up!

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- The tutorial helps clear certain topics up
- Helps to practice what we learn in lecture
- Feel more confident asking TA questions over in front of lecture.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I most enjoyed the Indigenous peoples tutorial (don't know proper name)

I found it interesting because being Metis I love learning about the culture and practices that have been shrouded by my family.

3) Are there any changes that could improve tutorials overall?

N/A

- more diversified, more history.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Bringing in their practices and use of different food is great.  
I ~~would~~ would've loved to hear more about the history.

5) What are your TA's strengths?

Well spoken, explains ideas thoughtfully and thoroughly  
easy to approach when in need of help, understanding & kind

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

N/A

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

I find it helpful that the tutorials build off the lecture material and provides us with an opportunity to expand and develop ideas.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

- the potato head tutorial

### 3) Are there any changes that could improve tutorials overall?

Some weeks had homework that had little relevance to the tutorial or included ideas that were only briefly discussed  
ex) "pizza test" discussed for a few minutes but was the focus of homework

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked that it made the link between food and culture clear. Many of the ideas/topics have been discussed many times before

### 5) What are your TA's strengths?

She is clear & concise

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- more class engagement

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It gives the students a better understanding of the material & gives us the chance to ask questions and learn more.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked this tutorial because food is something many people enjoy & have in common. It also shows the issues surrounding indigenous peoples and their rights.

5) What are your TA's strengths?

Knowledge of material, she is very good at answering questions. She also made it a comfortable learning environment.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- Help learn the materials in class.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the food choices & values are. Because every eats so I found the diversity interesting.

3) Are there any changes that could improve tutorials overall?

Nah, they're ~~pre~~ good enough

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Yd it was fine, no other comments.

5) What are your TA's strengths?

- very informational / knowledgeable
- very well spoken
- clearly cares about the subject & what she does.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- Some questions on the tutorial homework are not covered at all in the tutorial. Maybe a little coverage would be nice.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They give you a deeper insight into the material covered in lecture.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Primates because they are very interesting.

3) Are there any changes that could improve tutorials overall?

Improving class participation.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The information was quite boring and dull.

5) What are your TA's strengths?

She has a deep knowledge and passion for anthropology, which shows in her teaching.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

More class participation.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Gets you thinking more in depth about lecture materials

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Probably the garbage tutorial, just because I had no idea how much food is wasted and why.

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Both were interesting, especially the food guides for "standard" places vs indigenous places.

5) What are your TA's strengths?

- very open and approachable
- easy to ask questions and always get a good/knowledgeable answer

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

they help explain concepts and key terms in a little more detail

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The palm oil / orangutan tutorial, learning about important environmental issues is good knowledge to have and spread around in order to make a difference.

3) Are there any changes that could improve tutorials overall?

- they could have more interactive hands on activities rather than so many group discussions.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The "pizza test" was hardly explained in the tutorial and surrounded most of the homework, otherwise it was a very informative tutorial

5) What are your TA's strengths?

- She has really good knowledge of the material and does a great job making the students feel comfortable asking questions

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- She often goes through slides very fast

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- I liked that it emphasized and built upon important points introduced in the lecture & course material. It helped put those ideas in perspective and give me a better understanding overall

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

- The most interesting tutorial for me was the one on <sup>biological</sup> evolution when we took a look at skulls. ~~For the~~ This tutorial demonstrated features such as sexual dimorphism and other features to identify gender

3) Are there any changes that could improve tutorials overall?

- If the powerpoint/notes were posted online

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

- I liked that this tutorial was thought provoking

5) What are your TA's strengths?

- Positive attitude, kind enough to make accommodations for computer glitches  
- Well prepared, put a bit of personality into each topic by describing it in terms of new research areas

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- More concrete examples, explanations

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

- I like how they are usually hands on!
- we apply knowledge theory → practice

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Food + Indigenous peoples for sure

3) Are there any changes that could improve tutorials overall?

We are short on time always, sometimes we watch the videos we were already told to watch for the tutorial homework

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It shows the perpetual stereotypes of ~~the~~ Indigenous people and show how it's incredibly difficult for many Indigenous people to obtain their traditional food and showed that you don't have to eat 'traditional' food to be Indis

5) What are your TA's strengths?

- Confident
- Knowledgeable
- Friendly

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

N/A

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

More opportunity for in-person help from a teacher.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked eating bugs and learning about bugs.

3) Are there any changes that could improve tutorials overall?

More focused questions on the homework online. Sometimes I'd do the homework and wouldn't know any answers because it wasn't clear in tutorial.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The homework questions were too opinion based and similar to each other.

5) What are your TA's strengths?

- Kind
- Authoritative (in a good way)
- Not intimidating (I felt comfortable asking questions)
- Fun atmosphere follows her into a room.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

- Uhhhhhhh no.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

very clear and organized review of material from lecture.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

3) Are there any changes that could improve tutorials overall?

Tutorial homework often seems unrelated to what was discussed in tutorial

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I found it very informative

5) What are your TA's strengths?

Friendly, approachable, welcoming, organized knowledgeable

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

no

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They were all very interesting - kind of made what we are learning about seem more important, as it relates it to real life.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

garbology was very interesting, makes you realize more so the differences in cultures/lifestyles just by their waste

3) Are there any changes that could improve tutorials overall?

to be able to miss one or two tutorials without losing marks (similar to some labs)

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

More information on indigenous restaurants / businesses.

5) What are your TA's strengths?

She is very knowledgeable, doesn't make any one feel uncomfortable by calling on them.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

no

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They allow us to go more in depth on specific topics that are more briefly covered in lecture.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

My favourite was the BioAnth one (looking at skulls) because it was very hands-on, and examining skulls in general is cool!

3) Are there any changes that could improve tutorials overall?

Some of the exercises were a bit simplistic (like ~~the~~ dressing the potato heads & families) and maybe having more thought-provoking discussions instead would be more useful.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked that it was very relevant to where we live. A suggestion could be to bring in an Indigenous guest speaker to discuss the subject from first-hand experience!

5) What are your TA's strengths?

She was very nice and knew the material well. Overall, very good TA!

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Nope, can't think of any.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They clarify some material we don't cover in class.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I enjoyed the tutorial about skulls. It was interesting to be able to interact with something that wasn't a child's toy.

3) Are there any changes that could improve tutorials overall?

Some of the activities feel out of place and don't relate to the homework.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It pointed out things I didn't know were still being stereotyped today. I can't think of anything to improve upon.

5) What are your TA's strengths?

She's very informative. Good at clarifying

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Keeping it non personal. She brings her personal opinion in a bit.

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

I like that they provide a deeper insight into more of the specifics, rather than the gist and general info that we tend to get in lectures.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I especially liked the skull tutorial, it was very different from any other type we had done.

### 3) Are there any changes that could improve tutorials overall?

I found that a couple of the tutorial topics didn't correlate very well with the subjects in-lecture (esp. garbology)

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked the tutorial but I found that some of the activities, etc didn't run as smoothly as they could have.

### 5) What are your TA's strengths?

I can tell that she is really passionate about anthropology, which makes it more interesting to hear about, and she is also very knowledgeable about any questions we have or topics we talk about, and is very clear in her explanations.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I like that it offers a hands on approach to anthropology. It allows us to get away from the typical, dull lecture style.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The Bio Anth tutorial was the most relevant tutorial and allowed us to deal with actual materials.

3) Are there any changes that could improve tutorials overall?

Though tutorials are great and allow for hands on learning I believe often the 50 minutes were wasted. A lot of what we did in tutorial wasn't relevant to homework or class lectures.

I believe tutorials could be more engaging/happen

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

less often.

It was a boring tutorial. I understood it's purpose but it didn't do a great job at portraying the point, nor did it offer solutions to the problem...

5) What are your TA's strengths?

she knows a lot and takes her job seriously

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Speak up, be engaging.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I loved the Tutorials for ANTH 100 it was a good way to get a deep understanding of the ~~text~~ material and also loved the activities involved in the tutorial to make it fun & keeping it academic too.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The way we try to understand the tutorials with the help of activities.

3) Are there any changes that could improve tutorials overall?

I loved the tutorial overall and I don't find any ~~prop~~ problems or changes I needed to make.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It was a good tutorial.

5) What are your TA's strengths?

She was the best TA very clear in her material and understanding.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

None, she is good.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

When I didn't understand some things from the lecture, tutorials helps me to understand it a lot.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the orangutans tutorial the most and how palm oil production is destroying their homes. And how we can help them to save their lives.

3) Are there any changes that could improve tutorials overall?

I think the tutorials are interesting and very effective, fun.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Maybe more interesting materials for the tutorial.

5) What are your TA's strengths?

She is very understandable and kind-hearted person.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Nope, she is perfect overall.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It allowed for further clarification and understanding in a very approachable way.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Going through the garbage was quite interesting to see the results of

3) Are there any changes that could improve tutorials overall?

Overall it was good

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Interesting. Liked how it went

5) What are your TA's strengths?

She was calm, knowledgeable, and very approachable.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Not really. Maybe being a bit more assertive when bringing the class back together after talking.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Tutorials were not just a repeating of information from lectures.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

3) Are there any changes that could improve tutorials overall?

Maybe not more time for each tutorial.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I thought it was nothing special.

5) What are your TA's strengths?

Friendly and knowledgeable.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

None jump out at me.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Found skull tutorial + bug useful

- Ducks, potato heads felt like wastes, skull tutorial

felt like I was learning, those activities were <sup>not</sup> engaging

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Skull tutorial, I didn't have to tell my roommates I sorted rubber ducks  $\frac{1}{3}$  built potato heads

3) Are there any changes that could improve tutorials overall?

Make activities not feel like I'm ~~being~~ <sup>being seen</sup> as a child

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I enjoyed this tutorial however the purpose of ~~the~~ demo could be show in less time

5) What are your TA's strengths?

- Smiling

- positive

- cared about content

- enthusiasm

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It was nice to have a way to engage with the lecture material on a weekly basis

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

3) Are there any changes that could improve tutorials overall?

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

5) What are your TA's strengths?

Meaghan has been a very capable, helpful, engaging, and approachable teacher and it has been lovely to work with her.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Extra clarification about important class related concepts.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Orangutans! palm and tutorial was very eye opening.

3) Are there any changes that could improve tutorials overall?

Nope I thought they were great.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked looking at the brochures and the discussion the presented. The venn diagram activity was confusing and not very effective.

5) What are your TA's strengths?

easy to talk to, very engaging + knowledgeable.  
Really nice person who explained everything well.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Speak louder? honestly she was great!

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

Having a smaller space to discuss and ask questions

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I really enjoyed the primate tutorial where we got to look at casts of skulls. It was interesting to be able to look at in person rather than in textbooks

3) Are there any changes that could improve tutorials overall?

No

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

It was interesting. Eye opening to learn about their culture and food and how it may be more difficult for them to sell traditional food in restaurants in modern day

5) What are your TA's strengths?

Knowledge, well prepared & captivating to listen to

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

No

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

The TA was very knowledgeable about the content  
tutorial was very hands on.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the Food tutorial because it was very interesting  
and challenged how I saw food and valued food.

### 3) Are there any changes that could improve tutorials overall?

None that I can think of.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I found both very interesting. I had no idea  
that there was a dedicated food guide for  
indigenous people. Definitely challenged my perspective.

### 5) What are your TA's strengths?

Great communicator with a solid understanding  
of all the concepts. Extremely helpful in and  
out of class with questions.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

I thought Meaghan was a great TA!

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I liked the engagement with the material. I found certain tutorials more helpful than others - the Biotnth was great, whereas the evolution one seemed common knowledge. I felt comfortable to ask any questions needed.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the Palm Oil tutorial. Opened my eyes and was very <sup>n</sup>informative.

3) Are there any changes that could improve tutorials overall?

Some exercises were too easy - maybe more thought provoking activities.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

Really enjoyed it - very eye opening. Liked the videos and stories of the Indigenous Peoples.

5) What are your TA's strengths?

Meaghan really cares about her students. I felt comfortable asking questions. Asking if we got enough to eat/sleep made me feel understood and appreciated. She made tutorial material interesting and manageable.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Nothing! Good job 😊

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

I actually find them very pointless and think they don't relate to our course lecture material.

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I really liked the tutorial about dogs because it gave me more insight into food culture differences.

### 3) Are there any changes that could improve tutorials overall?

Make them more relevant. Also an exam prep would be nice.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

They were both good.

### 5) What are your TA's strengths?

Meghan made every class fun, straightforward, and lovely. She's a wonderful teacher.

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

No, I think Meghan just needs to keep doing what she does.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They were a good way to reinforce concepts from lecture and to better understand them

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

The one about homins, it was a good way to better understand material from class through the activities

3) Are there any changes that could improve tutorials overall?

Relate them more to lecture for some of them were not mentioned in lecture and were difficult to tie in

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

~~This tutor~~ The subject of this tutorial was not discussed in class and therefore, it was very helpful to improve course learning and understanding of materials

5) What are your TA's strengths?

Being informed on the topics

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Be more engaged in the activities

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It further explains and goes over what we've covered in class.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Garbology, sorting through garbage to figure out the type of people in the families.

3) Are there any changes that could improve tutorials overall?

No tutorial assignments every week because we already have quizzes.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

The new things I learned e.g. Pizza test.

5) What are your TA's strengths?

→ Punctuality  
→ Clear explanations.

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

She was great.

## Comments

### 1) What do you like or find helpful about the tutorials for ANTH 100?

Relating to topics for lecture this week + interesting examples

### 2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Primateology tutorial is it was very interesting to exam costs of humans + <sup>mon. human</sup> primates, Hands on!

### 3) Are there any changes that could improve tutorials overall?

Add in 2 tutorials for mid term and Exam prep as I have had that in other tutorial and it was very successful.

### 4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked that it connected to Victoria on a personal small scale level.

### 5) What are your TA's strengths?

Clear speaker, knowledge, efficient at giving out and helping us to understand information

### 6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

Let us know / emphasize which information will be in the homework.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

I enjoyed that the tutorials were interactive. It helped me develop a better understanding of the material discussed in the lectures.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the garbage tutorial. The interactive portion of the tutorial was very insightful and made me look at trash in a way to discover people's dietary habits.

3) Are there any changes that could improve tutorials overall?

I can't think of any changes to the tutorials that could improve the course.

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

~~Nothing~~ I liked how the tutorial discussed ~~the~~ the pizza test. That was something I didn't know until the tutorial.

5) What are your TA's strengths?

→ ~~is~~ informative

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

~~may~~ no.

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

They help to dive deeper into some concepts brought up in lecture!

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

I liked the tutorial with the Mr. Potato heads because it was fun and engaging.

3) Are there any changes that could improve tutorials overall?

N/A

4) The Food and Indigenous Peoples Tutorial is new. It was designed by Dr. McGuire and a team of students. What did you like about the tutorial? Do you have any suggestions to improve it?

I liked comparing the food guides as it was very interesting, and I really enjoyed learning about natural food sources.

5) What are your TA's strengths?

Meghan is super nice, very approachable, always comes super prepared, marks everything extremely fast, is extremely knowledgeable and overall just wants to help us do well in the course! Great TA!!

6) Are there any specific ways that your TA could improve their tutorial and/or their teaching in general?

N/A

## Comments

1) What do you like or find helpful about the tutorials for ANTH 100?

It make me understand the 'knowledge better.

2) From the tutorial list (provided by instructor) which was the most interesting/valuable/thought-provoking tutorial and what in particular did you like about it?

Bug eaten tutorial

3) Are there any changes that could improve tutorials overall?

I wish that the information/knowledge I learned from tutorial could help me for the exam
